## EXPERIENCE

---

### Milwaukee Tool | Packaging Co-Op

Milwaukee, WI | Jun – Dec 2025

- Designed and produced custom inserts for Packouts to protect marketing samples during air transport
- Performed ISTA testing on a range of products, writing and presenting reports on testing outcomes
- Supported my team by taking on work from overextended members, relieving stress and keeping projects on schedule

### Brown Box Agency | Associate

Clemson University | Apr – Dec 2024

- Provided solutions and recommendations to help companies overcome graphic and structural road blocks
- Led structural design based projects I was passionate about to achieve a final product I was proud of
- Engaged with teams from other companies to determine ideal outcomes for projects through iterative design, prototyping, and ideation

### Unified Global Packaging | Engineering Intern

Sutton, MA | May – Jul 2024

- Designed custom foam and corrugated packaging in SolidWorks with consideration for manufacturability
- Conducted a pilot project to simplify the integration of LCA software into multiple departments
- Prototyped designs on a variety of cutting tables to ensure proper fit and developed an understanding of digital to reality tolerancing

### Curtis Packaging Corporation | Packaging Intern

Newtown, CT | May – Jul 2023

- Participated in multiple departments including Design, Quality Assurance, and the Die Room
- Created die line files and operated a Kongsberg Table to create samples of paperboard packaging
- Developed PFMEAs by analyzing workflows and hazards within multiple departments
- Considered the balance between the manufacturability of samples and customer requirements

## EDUCATION

---

### Clemson University

Clemson, SC | 2022 – 2025
