EXPERIENCE

CT Home Services | Crew Leader

West Hartford, CT | 2020 – Present

- Led crews of up to 5 across a range of construction projects, including window replacement, kitchen and bathroom demolition, hardwood floor removal and chimney demolition
- Prepared rental properties for new tenants and maintained occupied homes independently, handling concrete removal and pours, fence installation and post-setting, and window, backsplash and fixture repairs
- Managed full-house pack-outs, organizing and preparing personal belongings for shipping and storage on tight timelines
- Worked alongside licensed tradespeople on kitchen and bathroom installs, carpentry, plumbing and electrical work, building hands-on trade experience

Milwaukee Tool | Packaging Co-Op

Milwaukee, WI | Jun – Dec 2025

- Designed and produced 4 custom Packout insert styles, including a 10-unit production run, to protect marketing samples during air transport
- Completed dozens of ISTA tests over a 6-month co-op, documenting results with 2,000+ photos to support packaging decisions
- Picked up overflow work from stretched teammates while managing competing project deadlines, keeping everything on schedule

Brown Box Agency | Associate

Clemson, SC | Apr – Dec 2024

- Delivered structural and graphic design solutions for client companies, from concept through production
- Directed client projects from concept to final product, weighing creative vision against structural feasibility and client needs
- Partnered with client and vendor teams on iterative design and prototyping to reach shared functional and aesthetic goals

Unified Global Packaging | Engineering Intern

Sutton, MA | May – Jul 2024

- Designed custom foam and corrugated packaging solutions in SolidWorks, balancing protective performance with manufacturability
- Led a pilot project to streamline LCA software integration across multiple departments
- Prototyped and tested designs across a variety of cutting tables, refining tolerances between digital models and physical production

Curtis Packaging Corporation | Packaging Intern

Newtown, CT | May – Jul 2023

- Gained hands-on experience across Design, Quality Assurance and Die Room functions, building a cross-departmental view of the packaging process
- Operated a Kongsberg cutting table to cut and glue hundreds of paperboard samples, and assisted in producing dozens of custom dies
- Analyzed departmental workflows and potential failure points and built risk assessments to strengthen process reliability

EDUCATION

Clemson University

2022 – 2025

B.S. Packaging Science, Minor in Business Administration (transferred from RIT, 2021–2022)

SOFTWARE

SolidWorks, NX, Bambu Studio, Compass, Artios CAD, Adobe Illustrator, Microsoft Suite, Claude Code
